Administrative Goals

1. Insure that all instruction is related to the present and future needs and/or interests of our pupils.
2. Insure that pupils have significant opportunities, consistent with their age and ability, for helping to determine the nature of their educational experience.
3. Insure that specialized and individualized kinds of educational experiences are made available for meeting the particular needs of every pupil.
4. Insure that pupils, teachers, and administrators have significant opportunities to participate in the decisions affecting the operations of the schools they work in or attend.

5. Provide comprehensive, high quality guidance facilities and services for every pupil.

6. Insure that resources available for education are used with maximum efficiency.

7. Insure that instructional, administrative, and supportive staff are of high quality and training in every respect.

8. Develop and utilize diverse forms of constructive cooperation with teachers, parents, pupils, and community groups.

9. Seek to provide and structure competition among pupils that is beneficial and will assist them in meeting the challenge of the working world they will be entering.

10. Develop academic goals and programs for individual pupils that are realistic and meaningful for that pupil.

11. Insure that all schools operate in a consistent manner with the district goals and policies.
