

Welcome to AP European History! This summer you will have two assignments in order to help prepare you for the course in September.

Assignment # 1: Learn the modern map of modern Europe

-Attached is a handout with a list of modern day European countries. There is also a blank map below the list of countries. You can print out the map and place the countries in their respective locations. You are also more than welcome to study from an existing map you find online. Just make sure the map is up to date and has ALL of the countries you need to know.

-You DO NOT need to submit anything for Assignment #1. Rather, **on the second day of school, you will be given a map quiz on modern European.**

Assignment # 2: Read a textbook chapter on the Late Middle Ages and then answer comprehension questions

-Attached is a PDF file from Chapter 11 of A History of Western Civilization. Read all of the file (it is approximately 24 pages).

-When you are done, answer the comprehension questions. Submit the questions on google classroom by the first day of school.

-Plagiarized work will receive a zero.

**The Late Middle Ages is technically before our time frame in AP European History.*

*However, the events of the Late Middle Ages will have a profound impact on our first two units of study**

Good luck and have a great summer. See you in September.

Mrs. Luberto
