Dear Caldwell – West Caldwell School District Families,

I feel it is important that our school community offer experiences and opportunities that promote children's education as well as health and wellness. That is why Caldwell-West Caldwell Schools has partnered with Champions to provide before and after-school programming for our students next school year. Champions' accredited programs have more than 30 years of experience providing high-quality out-of-school-time services that balance education and fun in a safe, enriching environment. The program will be conveniently located right here at all elementary schools.

Children's learning should continue when the school bell rings — and the Champions program ensures it will. Guided by passionate teachers, our students will have the chance to explore their curiosity and interests—in art, literacy, STEM and more-- and build confidence and community through hands-on projects and activities. Time will be set aside for homework support/completion; and healthy snacks and fitness will be offered each day.

For a closer look into the Champions experience, provided below is a link to a virtual tour of the program:
<https://www.discoverchampions.com/why-champions/virtual-tour>

Families will be eligible to register for Champions shortly, we will be sharing a flyer and additional information with you in the coming weeks.

I am truly pleased that we are teaming up with Champions and hope you will consider them as you make plans for your out-of-school-time needs next year.

Sincerely,

Brian P. McCarthy
School Business Administrator / Board Secretary
