

# Important School District Message

## March 26 update

Dear CWC School Community,

As you may have already seen in the news, Governor Murphy has announced that the school closure will remain in effect, and Remote Learning will therefore continue, through at least April 17, 2020.

In yesterday's message about the cancelling of NJSLA state testing, I neglected to provide the attachment. (See below.)

Many of you have reached out with positive messages about our staff and the great work they have been doing. It is so heartening to read these words of support, and I know they are making a difference to our staff. Below are a few samples.

take care,

James Heinegg

**[Our daughter] was confident and prepared this morning, and she was so motivated by your feedback on her postings throughout the day. You are amazing! Thank you for being our Teacher!!!**

**I appreciate all the district is doing. I have to say it's much smoother than I expected it would be and I know it's been a lot of hard work on the back end to set it all up. Great job!**

**I wanted to take a minute of your time and say what an outstanding job [my child's teacher] is doing helping the students navigate the new type of schooling we are doing. He has been excellent. Reaching out to us, answering questions and just listening. He is awesome. One of the best.**
